Mobile Store

A Source Atlantic Supply Chain Management Solution

The Source Atlantic Mobile Store brings a fully stocked, customized container to your locations. Easy, convenient, and the product you want when you want it. These containers can be moved easily from one location to another as work progresses, or from site-to-site at job completion.

- Fully Customizable
- Equipped with shelving, product bins, and labeled accordingly
- Inventory is managed by monitoring stock levels and replenishing based on usage
- Reports, analysis, and performance measures for management
- Flexible payment options – by transaction or monthly rental

Additional Options

- Loaded with a warehouse Inventory Management System
- Employee scan access for security and tracking
- Store can be manned with Source Atlantic or non-Source Atlantic employees, or if necessary can be unmanned
- Tool Management

As an extension of our existing Vendor Managed Inventory solutions package, the Source Mobile Store has been designed to reduce operating costs and minimize down time waiting for deliveries and off-site pick-ups.
