Re. Announcement, Source Atlantic Ltd. is pleased to welcome Soucie Salo Safety Inc

Source Atlantic Ltd. is pleased to announce our partnership with Soucie Salo Safety Inc. by acquiring majority shares of the business and is excited to have Soucie Salo Safety be part of the greater Source Atlantic organization. In operation since 1955 with more than 25 employees, Soucie Salo Safety Inc. supplies personal protective equipment and safety supplies to the mining, construction, forestry, government, health care, manufacturing, and service industries. With four Ontario locations in Sudbury, Timmins, and Val Caron, the acquisition provides a nearly national footprint for Source Atlantic – having recently expanded operations in Manitoba, Saskatchewan, and Alberta in 2016.

Steve Drummond, President of Source Atlantic, states “The fit between Source Atlantic and Soucie Salo Safety is undeniable. Both companies believe in proactively identifying ways to resolve customer issues and creating quantifiable value in both process and supply.” Pat Heaphy of Soucie Salo in Sudbury Ontario expressed similar sentiments, “It was extremely important for us to find a company that values our unique approach to delivering exceptional customer service. Source Atlantic’s ability to provide specialized technical services and value added solutions will provide Soucie Salo with the ability to further enhance the customer experience to our clients in Ontario.”

Pat Heaphy will continue as a partner and lead the Soucie Salo Safety team in Sudbury Ontario. Helene and Ray Poirier will continue as partners and lead our Timmins Ontario operation.

About Source Atlantic Ltd.

In operation since 1867, Source Atlantic Ltd. provides MRO products and supplemental services and solutions to the industrial, government, commercial and residential contractor markets. Source Atlantic partners with hundreds of world class suppliers, offers a multitude of specialized and technical services, and has many value added solutions designed to improve customers’ efficiency and productivity.
