Industrial Source Atlantic specializes in sourcing and delivering a wide range of maintenance, repair and operating (MRO) supplies. We offer the convenience of a single source of supply across a multitude of industrial product and service categories. Our commitment to customers has been instrumental in making us the industry leaders we are today. Our supply chain management solutions team can work with you to evaluate your supply chain, streamline key business processes, reduce total costs and improve overall performance.

Pipes, Valves & Fittings Source Atlantic is a major distributor of pipes, valves and fitting products to the industrial and mechanical markets in Atlantic Canada. Dealing with operating processes and environments that are often extreme, customers require a supplier that understands the importance of safety, quality and reliable on time service. Our large product inventory combined with a team of dedicated professionals and partnerships with leading manufacturers means we have the ability to support our customers with their day-to-day requirements and major projects.

Rigging & Lifting Source Atlantic Hydraulics, Rigging & Rubber is a full service rigging shop capable of fabricating, inspecting, testing and repairing slings and assemblies, all to ASME standards. We offer complete inspection, testing and recertification services. We have a large selection of ready-made slings in inventory or you can call us with your custom order. We are the exclusive manufacturer and distributor in Atlantic Canada of SLINGMAX® Twin-Path® with Check-Fast® high performance round slings - the world's first ergonomic slings with an overload indicator.

Hydraulics & Industrial Rubber Source Atlantic Hydraulics, Rigging & Rubber division specializes in the supply, install and repair of lightweight and heavyweight conveyor belts. We have a team of factory-trained technicians who are highly dedicated to providing the highest quality service. Source Atlantic offers a full line of industrial and hydraulic hoses and fittings, conveyor belts and components, abrasion and corrosion-resistant lining, as well as forestry fire equipment.

Power Transmission Source Atlantic power transmission offers a wide assortment of products from a variety of leading brands to satisfy your needs. With over 25 years of power transmission experience, our staff has become specialists in the field with expertise spanning across forestry, mining, manufacturing, and oil & gas sectors.

Welding Millennium Welding is a full service welding and compressed gas distributor. Our focus is on total service to the metal fabrication industry with factory trained technicians to perform warranty and service on all major brands of welding equipment, as well as an in depth offering of safety and industrial products.

Electrical Source Atlantic's electrical division partners with top manufacturers to provide high quality service and supply to residential, commercial and industrial markets. These partnerships make us the leading choice for your electrical requirements.

Plumbing & Heating Source Atlantic is a supplier of plumbing and HVAC products. We are partnered with the best manufacturers in the business to provide the highest quality products to our professional contractor market. We strive to provide solutions to the challenges our customers face in the industry as well as offer timely and accurate information on products that are of the latest technology, performance and quality.

Engineered Products & Services Source Atlantic Engineered Products and Services is an ISO 9001:2008 certified electric motor and generator supply and service company. We sell, remanufacture and service electro-mechanical rotating equipment such as air compressors, electric motors and controls, blowers, vacuum pumps, and engineered and industrial gearboxes.

Specialty Valves & Instrumentation Mobile Valve and NL Eldridge combine to provide the most comprehensive source for valve solutions and service in Atlantic Canada. Our industrial division has experience across all heavy industrial markets including oil & gas, pulp & paper, food processing, power generation, water and wastewater. Source Atlantic Specialty Valves division continues a 40+ year tradition of reducing your downtime and maximizing the efficiency of your facility.
